

Testimonial – Walt Cecil, ETHNOGRAPHICA

Walt Cecil from San Francisco has a 45 years career in the study of antique oriental carpets along with the buying, selling and designing of oriental carpets for production.

Walt Cecil: « ... While operating systems and hardware continue to improve at a remarkable rate I have always struggled with getting consistent, high quality prints that are accurate. I simply cannot afford to send an image of a great antique carpet to a client if there is any question about color.

Consequently I have spent many thousands on equipment, ink and paper only to be bewildered and confused by how this is all supposed to work together and often ending up with prints that were only good enough to be trashed.

That all changed when I decided to upgrade my very old version of SilverFast 6 to the new release 8 and add HDR 8. Before the purchase I called LaserSoft Imaging to ask a few questions about the upgrade. During this conversation I found out about PrinTao 8, a software release I had not heard of earlier. I listened carefully and must admit it simply sounded too good to be true. How possible could it be the software was as simple as described and still perform? [...]

While I am still new to PrinTao 8 I can say that I am now producing images that I am proud to present and am no longer wasting paper and ink while struggling with settings in Photoshop.

I can say that PrinTao 8 has put the fun back into printing images and has lowered the stress, frustration and wasted materials in the process. [...] »
