

Activation and Registration of SilverFast using a Reseller Key

Dear SilverFast Customer,

This guide explains how you can unlock your copy of SilverFast using the Reseller Key, which you received with your purchase.

1. Visit Website

Please start your web browser and visit our home-page at www.SilverFast.com. Click on »Support« and on »Activate Reseller Key«.

You may also just click [here](#) and you will be routed directly to the web page for activating your Reseller Key.

2. Enter Reseller Key and register SilverFast

Please enter your Reseller Key into the text field and click on »Next«.

On the next page, please fill out the registration form and click on »Register« to generate your SilverFast serial number. Please note, your serial number will include the first and last name you enter.

Having completed the registration process, the website will show your new SilverFast serial number. In addition, you will find a download link and some links referring online help.

Your serial number and these links as well will also be sent via email.

3. Unlock SilverFast

Initially, please install your SilverFast software; a link for downloading has been sent with your registration email. Please note: It is not necessary to re-install SilverFast, if you already have installed a SilverFast demo software.

Open SilverFast and a serialization window will pop up. Please enter your SilverFast serial number as well as first and last name used for registration. Click on »Unlock« to proceed.

SilverFast has been activated and is ready for your digital imaging activities. Please have fun and success working with SilverFast.

If you encounter any problems or questions, please do not hesitate to contact our [Customer Support](#).

Activate Reseller Key

If you have received a reseller key with the purchase, please activate it here to receive your SilverFast serial number.

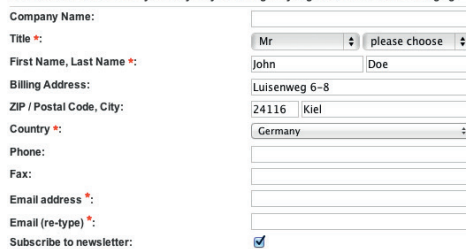

[\(activate here\)](#)

Reseller Key [e]:

The serial number is restricted to your first and family name.

For initial installation or later queries of the serial number (reinstallation or installation by subsequent owners) first and family names have to be indicated exactly the way they were originally registered at LaserSoft Imaging.
